➤ Looking for a sustainable development of the territory which should be reflected positively in improving the **quality of life and social cohesion** of the population in this common space, based on the shared resource, in the preservation and intelligent promotion of their **natural, cultural and ethnographic** values and in the **optimization and sharing of public equipment and services**.

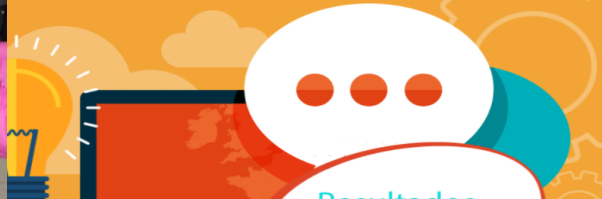

- Promoting "Euro-citizenship"
- Stimulating Public Participation
- Deepen institutional relations
- Programming and shared management of public services
- Universal and common access to services and equipment
